

PRODUCT

POSITIONING

- Temporary wrinkle remover.
- Helps to draw moisture to the surface of the skin.
- Results last 3-6 hours.

PROTOCOL

Lines & Wrinkles

Use daily as needed.

SMOOTH may be used daily as needed and reapplied throughout the day. To reapply, clean surface area then apply product per directions. Reapply make up as needed.

MAKE UP TIP! Mix a bit of the Hydra Crème when applying SMOOTH. This helps minimize any white residue and provides a taut service area for makeup application.

SMOOTH *THE INSTANT WRINKLE REMOVER*

See the years dissolve away right before your eyes.

In 90 seconds you can see amazing results.

90 seconds, it really works that fast!

How It Works:

Smooth uses simple science to deliver amazing results. Our unique combination of naturally-occurring hydrants and plumping agents help smooth the surface of the skin. The ingredients are designed to help draw moisture to the upper layers of the skin and temporarily fill the lines and wrinkles.

- Eliminate the appearance of age lines and wrinkles under eyes and on the cheeks.
- Visibly reduces the fine lines and wrinkles around the eyes.
- Diminishes puffiness under the eyes.
- Lasts up to 6 hours.

Directions: Shake well. Apply a small drop of SMOOTH by using your fingertips and patting gently into the line prone areas. Do not rub. Allow to dry thoroughly. If needed, blend edges with moistened tissue by patting gently. Apply to dry, moisturized skin. Apply makeup as usual. Remember, with SMOOTH less is more. A tiny bit goes a long way. If you see white shading around the applied area, just dab gently with moistened fingertips or moistened tissue to remove excess product.
