X-FACTOR REFIRMING SERUM

The X-Factor is a powerful soothing agent that helps fight free radical damage and calm aggravated or inflamed skin. Regardless of your skin cycle, age or skin condition, your skin comes in daily contact with harmful agents that irritate the skin. Help reverse the effect of free radical damage with XFactor and see your skin reclaim its' youthful look and feel.

KEY INGREDIENTS

DMAE—an excellent stabilizer. A unique ingredient that helps to prevent the breakdown of the cell, thus minimizing inflammation caused by free radical damage.

CoEnzyme Q10—A very effective anti-oxidant that helps neutralize free radicals and aids in the respiration of the bodies' cell.

Amino Acid Complex: – Vegetable derived blend of proteins that penetrate the skin and enhance water retention and moisture content in the skin.

Additional Additives:

- Aloe Vera Gel
- Jojoba Oil
- Silk Amino Acids
- Hydrolyzed Wheat Protein

Directions:

The X-Factor is designed to penetrate into the skin and should be applied after cleansing, but prior to any sealing moisturizing steps. This product can be used both morning or at night. The X-Factor can be applied prior to or after other treatment products.

1. Cleanse
2. Tone
3. **X-FACTOR**
4. Moisturizing

Excellent product to use after inflammatory treatments. X-Factor helps to calm and soothe the skin.
